

## Summer 2009 for young people

**All the initiatives, devoted to the Neapolitan children, guys and teenagers.**

### Summer for young people

After the success of last years, also for Summer 2009 the Social Politics Assessorship of Naples Town Hall has drawn up a **programme of activities for children, guys and teenagers** that offers a lot of opportunities and choices and is conceived **for every different age band** and that will be able to give to young people an important occasion to live **a good experience of aggregation and socialization**. There will be organized lots of **activities** among which bathing, residential stays and also a new initiative: some little cruises in the Gulf of Naples. Moreover, as every year, young people coming from various Town municipalities, will be hosted, in weekly tours at the **Polyfunctional Centre of Marechiaro** with activities of the project “Mario and Chiara at Marechiaro – Summer”. **All the activities** will be realized by third sector organizations which have a great **experience in the social-educative sector** and have the requisites provided from the current regulation and with the care of skilled workers.

### Little Cruises in the Gulf

The new initiative of this year for young people foresees the realization of **15 little cruises in the Gulf of Naples** to discover suggestive places. **About 120 young people** can take part to this little cruises, and they will be followed by skilled operators.

**The little cruise** – that will start from the port of Naples and in navigation to the islands of Campania's archipelago (Procida, Ischia and Capri) – will offer an interesting and constructive programme that is characterized by **guided tours on the ship** to explore its components and by the exploration of coast in search of enchanting sea places.

### Days at sea

**From 6 to 31 July** guys **from 8 to 11 years** could live beautiful days at sea organized by some structures of Campania's littoral. The activities are organized in **two turns** each of one lasts two weeks, from Monday to Friday, for 10 days.

**During every turn** there will be two initiatives that will consent to guys to have interesting experiences in addition to swimming: **a day in the City of Science**, where the activities provided are funny and educational, and **a day in cruise** in the Gulf of Naples, on the Falerno, in search of suggestive places. Moreover guys will practise activities linked to sea and they will be also involved in **sport activities** cared by Federazione Italiana Canottaggio.

### Summer for children in the City of Science

Inserted in the more wide project **Gioco Scienza**, that foresees guided tours in the **Science Centre of Via Coroglio**, it will be possible to spend a full day in the City of Science, visiting scientific and creative laboratories and observing stars **in the Museum's Planetarium**.

The initiative is conceived for the children that will take part to swimming activities and who already frequent other activities promoted by the Municipal Administration.
